

# Glycine max Genome Duplication Analysis - Summary Statistics

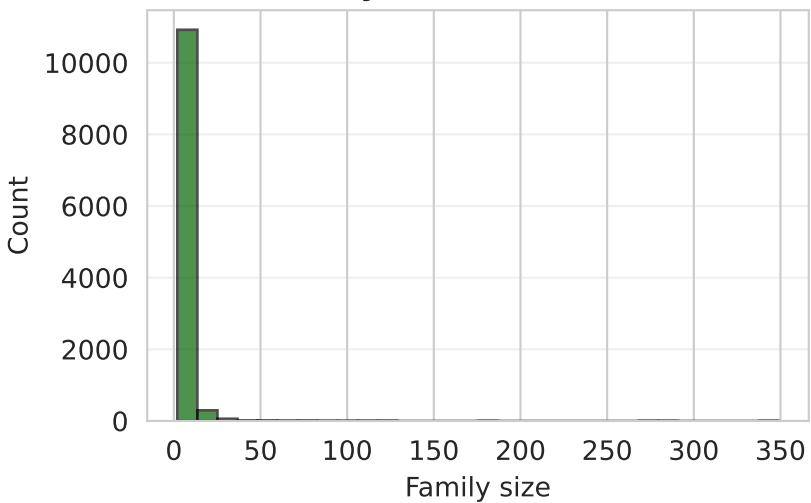

## Genome Statistics

Total genes in genome: 56679  
Duplicated genes: 48236  
Singleton genes: 8443  
Percentage duplicated: 85.10%  
Number of families: 11323  
Mean family size: 4.26  
Median family size: 3  
Max family size: 349  
Min family size: 2
